Wisdom: the new Frontier for Executive Business Management

Wisdom is given and revealed by masters of wisdom and also the subtotal of the experiences, knowledge, and wisdom harnessed by humanity.

Wisdom does not belong to privileged people. Every human being can have access to it, if he or she wants to pay the price: steady striving towards light, beauty, and higher creativity.

Today's economic, social, and technological progress is our own creation. Only the higher creativity and wisdom of our heart and mind can keep us striving harmlessly on the path of light, love, and compassion, which is the path of enlightenment.

Science and business is evolving a holistic way of thinking about the world. It gives a positive impetus to the evolution of people's consciousness and would move us to higher planes of creativity.

Recently Scientists stated that; Space and time are united as the dynamic background of the observable universe: Nothing is independent of any other thing. Our bodies are part of this Holographic universe and our minds are part of our body, and it is in touch with other minds as one consciousness. To ignore the inter-connectedness of all humanity is responsible for many of our problems.

The wise manager is an efficient person. To be efficient means to have command of one's personality and of life in general, at an increasing pace. He or she can put cause into action and produce results. He/she is a charge of Wisdom; through their thoughts, words, actions, enthusiasm, success, and can flourish in many realms. He or she enunciates causes that furthers the evolution of employees. His or her efficiency increases by the fact that their standards are high order, universal, and progressive. Inspire the employees to strive to meet new standards of thinking, producing, and acting.

Efficiency is the characteristic of the wise manager.

The wise manager is a striving manager. Striving in production and service to higher perfection. A striving Executive Manager demonstrates greater sense of vision and a greater effort to serve the purpose of his or her corporation. He or she is committed to an idea and a vision which is related to human welfare, human up-liftment, and human survival. He or she is serving in the fields of:

***Business * Science & Medical technology**
***Politics * Religion & Arts**
***Education * Finance & Economics**
***Communication & Philosophy**

The Wise Manager will learn new advance principles which are needed to joyfully serve and efficiently raise the level of production and the quality of services of the organization. Work with his or her co-workers in harmony and inclusiveness to achieve better and higher results.

The Wise Manager's Duties, in addition to his or her standard executive manager duties, are to bring five principles in manifestation in operating successful business:

- 1. Inner Beauty**
- 2. Futuristic**
- 3. Right Human Relations**
- 4. Increase Joy & Compassion**
- 5. Harmlessness**

Any Violation against these 5 principles will throw him/ her out of the path of wisdom.

The following skills are necessary for a wise manager to prepare himself/herself for greater achievements :
